## Features

- thread-cutting head WJK 100 (similar), self-opening
- guide spindle
- liquid cooling system

The rotational speeds of the spindle are changed by the transmission of the engine.

The cutting head is opened and closed by adjustable limit stops.

- If the year of construction has a "tüb."-date, that means the machine has been electrically and technically inspected by us on that date.
- If the year of construction has a "tüb."-date, that means the machine has been partially overhauled on that date according to the prior owner.
- If the year of construction is marked "\*\*", it is the information the prior owner relayed to us or our own estimation.
